Education

University of Michigan - Ann Arbor, Honors College

Graduation May 2021

Working towards a Bachelor of Science in *Computer Science*.

Computer Science Major; Complex Systems Minor - 3.8 GPA

Experience

Mia Learning

Washington, D.C.

Software Development Intern

May-August 2018

- Developed command line tools to improve functionality of company's core product, a chatbot, by working directly with the CTO. Created tools to generate and process unique data sets using Amazon Web Services and create machine learning models.
- Work was incorporated in machine learning processes and increased chatbot's ability to interpret human language.
- Collaborated with peers on research and development efforts aimed at solving technological challenges identified by the CEO.

National Institutes of Health

Bethesda, Maryland

Research Intern

June-August 2016

- Researched effects of chronic liver disease on patients with sleep disorders.
- Evaluated data sets for clinical research paper (under review for publication in journals).
- Presented research findings to NIH medical community and department head.

Skills

Languages

- Proficient in: C++, Python
- Experience with: Javascript/JQuery, mongoDB (robo 3T), command line, Java, R, HTML/CSS

Relevant Courses

- Data Structures and Algorithms (currently enrolled); Programming and Data Structures; Discrete Mathematics; Elementary Programming Concepts; Introduction to Cryptology

Leadership

Delta Tau Delta Fraternity

2017 - present

Academic Chairman

- Automated the reservation of study rooms for fraternity, created website to host resources to be used by members of fraternity.

Sports

- University of Michigan Rock Climbing Club 2017 - present
- Long distance runner 2014 - present

Personal Projects

Stockview

- Created Google Chrome extension that links company cited in a online source to its financial data on Yahoo Finance. Code available on [github](#), [downloadable](#) on Chrome store.

Haiku Review

- Created a Twitter bot that tweets haikus where each line is an abbreviated news article headline. Code available on [github](#), find [@haikureviewlive](#) on twitter to see examples.
