Education

University of Michigan - Ann Arbor, Honors College　　　　　**Graduating Winter 2020**
B.S. in Computer Science; 3.82 GPA.

Experience

Google　　　　　**Virtual**
Software Engineering Intern　　　　　*May-August 2020*
- Implemented graceful shutdown of processes in OpenTelemetry to ensure all traces and metrics are exported before a Google Cloud Run instance is scaled down.
- Wrote five pull requests to resolve six issues across the opentelemetry-js, opentelemetry-operations-js, and opentelemetry-python repositories.
- Created prototype of metric exemplar feature, wrote extensive documentation to hand off project.

Under Armour　　　　　**Baltimore, Maryland**
Collaboration Software Intern　　　　　*May-August 2019*
- Built custom Slack and Teams integrations using node.js and botkit to improve process for identifying and solving employee tech and infrastructure challenges. Saved company an estimated $30,000 per year and greatly reduced resolution time for incidents.
- One of three interns selected to present to CTO and department heads.

Mia Learning　　　　　**Washington, D.C.**
Software Development Intern　　　　　*May-August 2018*
- Developed in-house machine learning and data collection tools to improve the functionality of the company's core product, a chatbot, by working directly with the CTO.
- Streamlined data collection process via automation and pipelining, reducing time required from eight hours to 30 minutes and increasing chatbot's ability to interpret human language.

National Institutes of Health　　　　　**Bethesda, Maryland**
Research Intern　　　　　*June-August 2016*
- Analyzed the effects of chronic liver disease on patients with sleep disorders.
- Evaluated data sets for a clinical research paper and presented findings at medical symposium.

Technical Skills

Languages and Technologies
- Languages: C/C++, Python, Javascript/HTML/CSS, ARM Assembly.
- Technologies: React, Linux, Git, SQL, GraphQL, Bash Scripting, Pandas, Flask.

Relevant Courses
- Operating Systems; Parallel Computer Architecture; Data Structures and Algorithms; Web Systems; Computer Organization; Software Engineering.

Leadership

Sample Sale Black Op　　　　　*July 2019*
- Managed Under Armour employees during three day pop-up sale, raising $1 million for charity.

Eta Kappa Nu, EE and CS Honors Society　　　　　*2019 - present*

University of Michigan Rock Climbing Club　　　　　*2017 - present*

Personal Projects

- *CrockPi:* Raspberry Pi based controller for a slow cooker which modulates cooking time and temperature using a relay and sensors. Code available on GitHub.
- *Coevolution:* Evolutionary algorithm based simulation that showcases how an organism's brain and body can evolve in conjunction with one another. Code available on GitHub, live demo.
- *Haiku Review:* Twitter bot that creates haikus where each line is an abbreviated news article headline. Code available on GitHub, find @haikureviewlive on Twitter to see examples.
